RENTING vs OWNING

A commercial space is a real estate investment that should appreciate just like a home or an office building does, building your equity. Similar to a residential condominium, a business condominium is a piece of real estate that you own, and you still receive a deed at closing.

Your business and storage requirements can now be an investment in desirable commercial real estate! Turn your rental expenses into an appreciating asset!

If your space is used for business purposes, the interest expense is deductible. The purchase is a depreciating business asset, effectively lowering the amount you pay on your income taxes. Each Flex Space unit is part of a Condominium regime with some shared amenities and expenses for which owners typically pay monthly dues to maintain in the same manner as an HOA.

After the initial down payment, the cost of ownership can be less than renting a comparable space. Plus, you can build your net worth and balance sheet as well as improve your financial statement and borrowing capabilities.

Other Benefits of Owning Rather Than Renting Include:

- ➔ Rental rates should only continue to rise, so now you can enjoy no annual rent increases!
- ➔ Reap the tax advantages of owning versus leasing.
- ➔ Realize property appreciation, build equity and ultimately profit!
- ➔ Hedge against inflation with low, fixed monthly payments.
- ➔ Utilize the depreciation of your unit's total cost to provide significant deductions to your yearly income taxes (if your building is used for commercial/business usage).
- ➔ Individual control of your space and its design.
- ➔ Your expenses for customization and improvements can be recaptured at the time of sale rather than lost, as is the case with tenant funded improvements to a lease property.
