HOW NASHVILLE MEETS THE RIVER'S EDGE

2210

A modern interior hallway with a minimalist design. The walls are made of light gray concrete, and the floor is covered in large, light-colored square tiles. On the left, a wall features a series of horizontal wooden slats. The ceiling is industrial, with exposed pipes and track lighting. On the right, a wall is composed of dark vertical panels. The hallway leads into a darker area in the background.

NASHVILLE'S NEWEST
MIXED-USE DISTRICT

ANCHOR YOUR **BUSINESS IN NASHVILLE'S NEW DOWNTOWN**

River North is a new mixed-use district located a stone's throw from Oracle's new campus, East Nashville, Germantown, Topgolf, and only a few minutes from Downtown. You're integrated into the best that Nashville has to offer - nightlife, trails and greenways, adjacent interstate and surface street access as well as sweeping views of the Cumberland River.

NEW OPPORTUNITY IN NASHVILLE

In the heart of Nashville's thriving downtown sits an untapped opportunity to build the city's next great neighborhood in the East Bank, along the Cumberland River.

With plans to re-envision 338 acres of underutilized land, the vision is to transform a disconnected, unpopulated industrial area of the city into a place reclaimed for all Nashvillians to enjoy.

Kicking off an exciting new chapter, East Bank is seeing several projects under development and a flurry of new opportunities headlined by Oracle.

The tech giant, who recently purchased 70 acres in River North for a new 8,500-employee campus, has committed \$175 million to infrastructure upgrades that will include a new public greenway along the riverfront for pedestrians and bicyclists and a new pedestrian bridge over the river.

East Bank's New Pedestrian Bridge

With a targeted completion date in 2025, the new pedestrian bridge represents Oracle's pledge to the city and will extend the Nashville's Greenway trails up the East Bank, linking Germantown and other bustling neighborhoods to the previously secluded River North waterfront, with a distinctive bridge design that will feature cables only on one side.

A NEW HOME FOR THE TITANS

Currently leasing Nissan Stadium from the Metro Sports Authority — which owns 90 acres of land on the East Bank — the Tennessee Titans have plans to construct a new 1.7 million SF, 60,000-capacity stadium adjacent to the existing site.

Design of the new stadium is inspired by the city of Nashville and is planned to complement the broader East Bank development, with specific attention given to multi-purpose functions to maximize the number and types of events the building would be able to host.

PROPERTY HIGHLIGHTS

DELIVERING SPRING 2025

NOW LEASING

2200 BOWLINE AVE / NASHVILLE, TN

Creative office building

Ground floor retail
