EXECUTIVE SUMMARY

PROPERTY DESCRIPTION

The Property consists of a single parcel that is approximately ± 14.02 acres in size. It has 2 very distinct areas with separate zoning. The area to the East is an approximately 5.0 Acre section that is a flat, graded pad with 3 buildings totaling approximately 13,000 SF with a County Zone of M-52 (Industrial). The area to the West is a sloped area totaling approximately 9.02 acres that is County Zoned RR (Rural Residential).

This gives the buyer a wide variety of ways to utilize the property, additional potential income sources, and future development opportunities that provide flexibility for the buyer or exit strategies for disposing of the asset down the road.

PROPERTY HISTORY

The Property has a rich history as the former home of CW McGrath, Inc, who was one of the largest general engineering contractors in southern California prior to CW (Bill) McGrath's retirement in 2000. Originally acquired by McGrath in 1950, it has been used as a construction yard for the last 70 years and also was an active mine for many years. It still retains its vested mining rights and all regulatory requirements are in compliance including the reclamation plan which is updated annually through the state Office of Mine Reclamation in Sacramento.
