CYBER CITY

U.S. Army Cyber Command (ARCYBER) is the Army headquarters beneath United States Cyber Command. The Army Cyber Command Headquarters located at Fort Gordon operates and defends Army networks and delivers cyberspace effects against adversaries to defend the nation. ARCYBER, led by Fort Gordon, conducts global operations 24/7 with approximately 16,500 Soldiers, civilian employees, and contractors worldwide. The Pentagon's 2013 announcement led to the relocation of the U.S. Army Cyber Command from Fort Meade in Maryland to Fort Gordon in Augusta. Fort Gordon is fast becoming a center for joint forces activities, training, and operations and is a huge employer in east Georgia. With a workforce of 31,155, much of the installation's annual economic impact of nearly \$2.4 billion goes directly into area shops, real estate, banks, and other businesses.

The Augusta Region has long been a hotbed for the tech- and cyber-related companies such as Unisys, ADP, and Raytheon. Now, Augusta is home to the US Cyber Command at Fort Gordon and the newly completed Georgia Cyber Center, a \$100 million investment and the largest government cybersecurity facility in the United States. Located on the Nathan Deal Campus for Innovation, the center is a unique public/private partnership involving academia, state and federal government, law enforcement, the U.S Army, and the private sector. Other cyber-focused businesses are paying attention and taking advantage of the expanding field by moving their headquarters and establishing branches in the Augusta Region. The \$100 million Georgia Cyber Center, the single largest investment in a cybersecurity facility by a state government to date, is a unique public/private partnership involving academia, state and federal government, law enforcement, the U.S. Army and the private sector.
